**Appropriate for:** Registered nurses who are new to McKinley T34/BD BodyGuard T Syringe Pumps and are not competent in their use.

*(NB: Staff applying for this training should bring along a McKinley T34/BD BodyGuard T Syringe Pump from their organisation to the training session)*

The nurse needs to identify a practice assessor who is competent in McKinley T34/BD BodyGuard T Syringe Pumps and who can assess and sign off competencies within 2 months of attendance of the training (NMC Code 2018).

**Max Number:** 12

**Facilitators:** Phyllis Tuckwell Education team

**Cost:** N/A

**Aims:**

To increase knowledge and understanding in the safe management of syringe pumps and practise setting up a pump in preparation for competency sign off.

**Learning Outcomes:**

- Outline relevant clinical guidelines associated with use of syringe pumps.
- Identify the risks and benefits involved with the use of a syringe pump.
- Gain an awareness of medication compatibility and conversions associated with oral to subcutaneous administration.
- Demonstrate and practise the safe use of syringe pumps.

**Contact:** **The Education Department on 01252 729474 or education@pth.org.uk**
