Appropriate for: Registered Nurses who are new to McKinley T34/BD BodyGuard T Syringe Pumps or who are not competent or confident in their use.

(NB: Staff applying for this training should bring along a McKinley T34/BD BodyGuard T Syringe Pump from their organisation to the training session)

The nurse needs to identify a practice assessor who is competent in McKinley T34/BD BodyGuard T Syringe Pumps and who is able to assess and sign off competencies within 2 months of attendance of the training (NMC Code 2018)

Max Number: 10

Key KSF Dimensions covered: C1, C2, C3, HWB2, HWB5, HWB7

Facilitators: Phyllis Tuckwell Community Specialist Palliative Care team

Cost: N/A

Aims:

- To increase awareness of the safe management of McKinley T34/BD BodyGuard T Syringe Pumps in palliative care in the community setting.
- Demonstrate use of the Syringe Pumps to help facilitate confidence in practice.

Learning Outcomes:

- Outline relevant clinical guidelines associated with use of syringe pumps.
- Identify the risks and benefits involved with the use of a syringe pump.
- Gain an awareness of medication compatibility and conversions associated with oral to subcutaneous administration.
- Demonstrate safe use of the Syringe Pumps and have an opportunity to practise.
