- Hospice Care, everywhere:**
- Living Well services at the Hospice and Beacon Centre,
 - Care at Home team, including Hospice Care at Home nursing, In-Patient Unit.

We offer a wide range of highest quality services, from medical and nursing care, therapies and counselling, to help with finances, benefits claims and practical support.

...and your family

When you are living with an advanced or terminal illness, we know it can be a very difficult time. So Phyllis Tuckwell is here for you and your family, offering you support and help at every stage of your illness and treatment. We are here for you and your family...**because every day is precious.**

For many patients, when a cure is not likely, Hospice Care can be a positive experience. Phyllis Tuckwell offers a compassionate approach to enhancing quality of life and enabling patients to live as fully and comfortably as possible.

We provide compassionate care at our Living Well sessions at the Hospice and Beacon Centre, through our Care at Home team who visit patients in their own homes, care homes and community hospitals, and on our In-Patient Unit at the Hospice in Farnham.

Our care helps patients manage their illness and improves quality of life for both them and their families.

Receiving Hospice Care is not about giving up hope, but is a way to get the most appropriate care when a cure is not likely for your illness.

We work alongside you through the difficult times, as well as the times of hope and joy, to ensure your Hospice Care

experience is met with support, dignity, peace and hope.

Only 20% of our costs are covered by the NHS, but all of our care is free to our patients and their families. Most of our funds come from other people who care as passionately as we do – they donate money, leave gifts in their Wills, organise fundraising events and volunteer their time, to help us provide this exceptional service to our patients.
