

# Every Mug Matters

Phyllis Tuckwell provides specialist palliative and end of life care for patients, families and carers living with an advanced or terminal illness, such as cancer.

Thanks to your generous donations, we can continue to provide this vital care to those who need our help, supporting them to live as fully and independently as possible, for as long as possible, and enjoy the time they have with their loved ones... **because every day is precious**. We support over 250 patients, relatives and carers every day - in their own homes, on our In-Patient Unit and at the Beacon Centre in Guildford.

We don't charge a penny for our care, but as the Government/NHS only cover around 25% of our costs, **we have to raise over £30,000 every day** to do this, which is why the support we receive from our amazing local community is so important.

## How your donations can help

£16

could help pay for an hour's care from a health care assistant on our In-Patient Unit, offering compassionate care to patients and their loved ones.

£24

could go towards the cost of a physiotherapy session,

helping patients to remain active and manage symptoms such as breathlessness.

£50

could cover the cost of two hours' support from one of our counsellors,

enabling patients, relatives and carers to talk through their feelings in a safe, confidential space.

£119

could pay for a day's care from one of our Hospice at Home nurses, who visit patients at home, providing specialist nursing care and support.
