### Aims:

- Undertake training in line with the National End of Life Care Strategy.
- Further develop knowledge, skills and confidence to assess patients in the last year of life and the needs of carers.
- Develop the knowledge and skills to manage symptoms of patients with progressive disease near the end of life.
- Enhance understanding of how the Gold Standards Framework assists with proactive assessment and management.

### Learning Outcomes:

- Identify the interface between palliative care and end of life care with an understanding of the end of life care pathway.
- Understand the domains of holistic assessment in relation to end of life care, patient and carer needs.
- An enhanced awareness of how the Gold Standard Framework Prognostic Indicator Guidance can assist with identifying patients with non-malignant conditions and clinical management at the end of life.
- Identify and assess symptoms in palliative care.
- Understand the management of common end of life symptoms, i.e. pain, nausea and vomiting, dyspnoea.
- Awareness of the range of pharmaceutical and non-pharmacological therapies.
- Know when to refer to specialist palliative care.

### Booking process:

Please ensure payment is made prior to commencement of the course. To reserve your place complete and return the attached booking form. For information regarding all courses held at the Hospice and the Beacon Centre, please look on our website at [www.pth.org.uk](http://www.pth.org.uk)
