Skills for Care requirements for End of Life Care Principles and Core Competence

CQC Essential Standards (2010) Outcome 1, 2, 4, 7

Facilitators: Phyllis Tuckwell Community Specialist Palliative Care team

Cost: £80 per person (lunch included)

Aims:

- Identify the key communication skills required to communicate needs, preferences and wishes of the patient and carer.
- Enhance awareness of individualised tailored care to meet the needs and wishes of the patient in the last year of life.

Learning Outcomes:

- Be aware of the roles, responsibilities and parameters as a care worker and when to refer.
- Identify the skills, attitudes and behaviours required to help with the needs of patients and their carers towards the end of life.
- Understand the domains of holistic care and the importance of assessment and attention to detail when providing care for patients with advanced illness.
- Understand the principles of managing symptoms and increase awareness of non-pharmacological therapies to assist with the care of the patient.
- An understanding of the dying process, common signs and symptoms.
- Understand why a Syringe Driver is used.
- Demonstrate practical skills to help deal with difficult questions.
- Increase confidence to sensitively communicate with the patient and carer.
- Demonstrate an understanding of Advance Care Planning.

Booking process:

Please ensure payment is made prior to commencement of the course. To reserve your place complete and return the attached booking form. For information regarding all courses held at the Hospice and the Beacon Centre, please look on our website at www.pth.org.uk
