For new users

Date	Time	Venue
Tuesday 21 May 2024	13.30-16.00	Headway House, Crosby Way, Farnham, GU9 7XG
Thursday 18 July 2024	13.30-16.00	Headway House, Crosby Way, Farnham, GU9 7XG
Tuesday 10 September 2024	13.30-16.00	Headway House, Crosby Way, Farnham, GU9 7XG
Thursday 21 November 2024	13.30-16.00	Headway House, Crosby Way, Farnham, GU9 7XG

Appropriate for: Registered nurses who are new to McKinley T34/BD BodyGuard T Syringe Pumps and are not competent in their use.

(NB: Staff applying for this training should bring along a McKinley T34/BD BodyGuard T Syringe Pump from their organisation to the training session)

The nurse needs to identify a practice assessor who is competent in McKinley T34/BD BodyGuard T Syringe Pumps and who can assess and sign off competencies within 2 months of attendance of the training (NMC Code 2018).

Max Number: 10

Facilitators: Phyllis Tuckwell Education team

Cost: N/A

Aims:

To increase knowledge and understanding in the safe management of syringe pumps and practise setting up a pump in preparation for competency sign off.

Learning Outcomes:

- Outline relevant clinical guidelines associated with use of syringe pumps.
- Identify the risks and benefits involved with the use of a syringe pump.
- Gain an awareness of medication compatibility and conversions associated with oral to subcutaneous administration.
- Demonstrate and practise the safe use of syringe pumps.
