For Registered Nurses

Date	Time	Venue
Thursday 16 July 2020	11.00-12.30	The Hospice, Waverley Lane, Farnham, GU9 8BL
Tuesday 10 November 2020	11.00-12.30	The Beacon Centre, Gill Avenue, Guildford, GU2 7WW

**Appropriate for:** Registered Nurses

**Max Number:** 16

**Key KSF Dimensions covered:** C1, C2, C3, C5, HWB2, HWB5, HWB7

**Facilitators:** Phyllis Tuckwell Community Specialist Palliative Care team

**Cost:** £40 per person

### Aims:

- Discuss the role of the safe management of subcutaneous hydration in the community and community hospital settings.
- Guidance to underpin assessment and competence for the procedure.

### Learning Outcomes:

- Define hypodermoclysis and indications of use.
- Illustrate how to calculate and set up an infusion.
- Have an understanding of safe monitoring process and potential contra-indications.
- Distinguish roles, responsibilities and expectations of the health care professionals.
- Demonstrate aspects of communication, assessment and preparation.

### Pre course work:

Read Hypodermoclysis (subcutaneous hydration) guidelines and competence in local organisation.
