90 minute session online  
using Microsoft Teams

Date	Time
Wednesday 2 February 2022	13.30-15.00
Wednesday 4 May 2022	13.30-15.00
Thursday 8 September 2022	13.30-15.00
Thursday 24 November 2022	13.30-15.00
Tuesday 7 February 2023	13.30-15.00

**Appropriate for:** Registered Nurses

**Max Number:** Unlimited

**Key KSF Dimensions covered:** C1, C2, C3, C5, HWB2, HWB5, HWB7

**Facilitators:** Phyllis Tuckwell Community Specialist Palliative Care team

**Cost:** N/A

### Aims:

- Discuss the role of the safe management of subcutaneous hydration in the community and community hospital settings.
- Guidance to underpin assessment and competence for the procedure.

### Learning Outcomes:

- Define hypodermoclysis and indications of use.
- Illustrate how to calculate and set up an infusion.
- Have an understanding of safe monitoring process and potential contra-indications.
- Distinguish roles, responsibilities and expectations of the health care professionals.
- Demonstrate aspects of communication, assessment and preparation.

### Pre course work:

The training will be delivered using Microsoft Teams. Please ensure you have a device with camera/audio and you have MS Teams downloaded onto your device prior to the session.
