Assessment and Symptom Management in End of Life Care for Care Home Registered Nurses

Online using Microsoft Teams

Date	Time
Wednesday 8 November 2023	13.00-16.00
Wednesday 22 November 2023	13.00-16.00

or

Date	Time
Tuesday 4 June 2024	13.00-16.00
Tuesday 18 June 2024	13.00-16.00

or

Date	Time
Thursday 7 November 2024	13.00-16.00
Thursday 28 November 2024	13.00-16.00

Both days must be attended to complete this programme.

Aims:

- To recognise when change and deterioration indicates a need for re-appraisal of treatment, clinical management and support.
- To review the individual's priorities, goals and decisions, tailoring care to the needs of the individual and their carers.
- To further develop knowledge and skills to influence a dignified life and death.
- To support choice and respect for the dying person.

Learning Outcomes:

- To gain awareness of the prognostic indicators that enable end of life to be identified.
- To gain an understanding of the management of common end of life symptoms such as pain, nausea and vomiting and dyspnoea.
- To interpret how the 5 priorities of care are addressed in clinical practice at end of life.
- To gain an awareness of the holistic needs of the dying patient and carer.
- To gain awareness of the normal bereavement adjustment process.
